

# MATERIA PRO EFFECTS

Materia Pro Effects, decorative coats, evoke golden, silver and bronze shades. Materia Pro Effects, dark shades coat, contribute to create an elegant and refined and fascinating environment. The dark, satin and perlescent effects are enhanced by the light creating a fairy environment. Application doesn't require special tips: in case of damages, Materia Pro Effects surface can be easily repaired.

## SURFACE PREPARATION

Smooth surfaces, dry walls need to be primed by one coat of Materia Pro Fondo.

## APPLICATION

Materia Pro Effects are ready to use. Don't use mechanical tools.

Spread on the wall Materia Pro Effects Gold, Silver or Bronze by stainless steel trowel by a slight pressure, smoothing well all the applied surface. Wait 12 hours and apply a second coat smoothing immediately and changing continuously the direction of the trowel action; in such a way a deep and complex effect will be obtained. Also a vertical pressing may lead to an interesting effect.

Clean tools immediately after use, by warm water and soap.
